"Comments And Concerns"

Emory Waiters : # 2279094

I've witnessed the corruption emerge from within Sheriff Gusman Administrative watch. I've seen first hand in 2005, for Hurricane Katrina as deputies brought in and distributed drugs to inmates that had cash to obtain them and the list goes on. I thought I was in a movie. My point is this; to stop something that took a process of time to grow, like the tar on the wheel won't go away over night, here again Sirs, it will take a process of time to eradicate these problems that has become a epidemic from within of drugs and violence in its very own system. Nothing has changed just covered up by in elaborate escapade of clever performance by Sheriff Gusman and his Administration, when a higher figure of authority such as "the Federal Government" back is turned, its back to the same old dirty habits or schemes, which is why the in-house "proposed Monitoring" plan should be establish as a permanent based, result effecting change of misconduct by Sheriff Gusman Office from within. As a recourse someone who has experience, a zero-tolerance program for staff or inmates, a capable mind, a objective view of reasoning to run this Administration of Sheriff that has become a serious matter of its perpetuity. I believe the consent Judgment is a start of accountability in the right direction and this is my comment...

: Address to Judge Lance M. Africk

Thank you Sir
